

# LOOKING FOR ENERGY EFFICIENT TECHNOLOGIES?

Introducing 'ME-ENERGY' - a quick, easy and scalable energy solution

ME-ENERGY is an open, scalable energy efficiency solution which is easy to set up:

- **Machine monitoring or process section**
- **Multiple measuring points with a package of pre-built programs**
- **Functionality for standard, open and flexible PLCs, HMIs and energy meters**

You can install a local energy monitoring solution as a standalone installation or integrate functionality within an existing machine control system.

- **Quick and easy installation**
- **Plug 'n' Play for standard installation with configuration from HMI**
- **Easy and scalable with other Mitsubishi Electric solutions**

Ensuring your operations are running efficiently is about measuring, monitoring and acting on data. This reduces consumption, lowers energy costs and minimises carbon dioxide emissions.

**Special offer**

## With our proven track record—we can help

### ME-ENERGY—energy monitoring solutions:

- Automate how you collect, monitor and analyse data from multiple sources through a common interface
- Data collection is centralised from multiple energy meters and other devices using the PLC as a digital access point
- Historical data visualised with the GOT HMI, using trends
- Logged data to the local SD card can be retrieved for further analysis
- Initial solution prepared for logging data from eight meters configured with in the HMI

#### SAP Number 717766

GT2107 HMI, iQ Works2 software, FX5 compact PLC and ME96 energy meter with TCP network option.

List price £3427.50

Promotional price £843

#### SAP Number 685187

SoftGOT2000-USB RT & SGT2K-WEBSKEY-1.

List price £2164

Promotional price £985

### Start small and scale up!

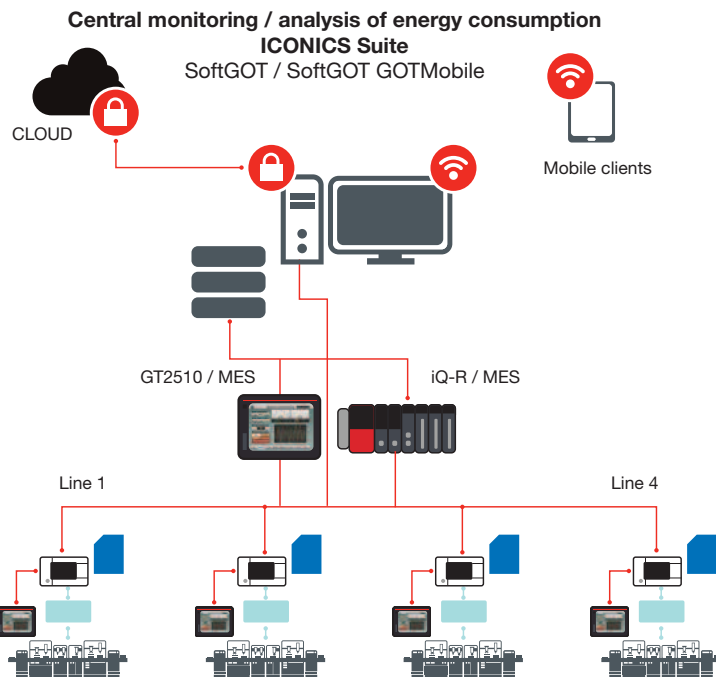

With just a single machine or process section you can develop an understanding of potential savings available.

### Scale up step-by-step

Scalability enables you to introduce additional tools as you need them, including visualisation through ICONICS Suite, SoftGOT with SoftGOT GOT Mobile, HMI or iQ-R connectivity with SQL database and many more.

### Low cost management supervisory solution

We have introduced special pricing for SoftGOT our PC based HMI and SoftGOT Mobile which presents data to standard web browsers and mobile devices.
